QUESTION – What is currently the biggest threat to continued human existence? ANSWER - THE CLIMATE CRISIS.

The CLIMATE CRISIS is an EXISTENTIAL THREAT. That means it threatens our very existence!

To save the Earth (the BIG 'E') from this Existential threat, we need to Engage, Enlighten and Encourage HUMANITY i.e. every one of us who cares and wants to survive!

Why then, are so few of us seemingly able to realise that we are fighting to solve this issue at the wrong level? This Climate Crisis of HUMAN INDUCED CLIMATE CHANGE AND HABITAT DESTRUCTION (HICC+HD) is created by ALL OF US. Yes, we are ALL responsible, (even the most Eco of the Eco Warriors!), because we have <u>all</u> bought into HUMAN Society, which is more divided than ever in its history.

We need to UNITE HUMANITY like never before to survive. To do that, we require to do it by a means that bypasses and ignores the main divisions in that human society, which are: patriotism, politics and religion. To unite HUMANITY those subjects cannot be part of the issue. Hence 'i4one'.

To join 'i4one' you must be 1. HUMAN and 2. Be able to say or think "I for one will not stand by and let our Earth die." If you can do that and mean it in your heart, you are in! Simple as that. No inclusion of any human society dividing factor. Do it. Join, NOW!

Its FREE, its simple, its NON-DIVISIVE! It's the ONLY way to solve the Climate Crisis at the correctlevel, at SPECIES level.(PTO continues overleaf)
