

ON ELECTION DAY IN THE UK, 4TH JULY and on 'Protect Our Planet, 24/7' Day, 24th July, everyone will be able to show visually their 'visible vote' for the planet, not for a Political Party, but for OUR PLANET!

How?

That vast Earth caring majority of humanity can be revealed, notably by adopting a Traffic Light (or Pelican Crossing) that is involved in your normal daily life routine. Be it near home, on your way to work or school or where you are at the time on the dates specified. When you adopt something you care for it, not damage nor disrupt it.

By adopting a traffic light you 'TRANSFORM' it into your own flashing beacon of hope, your visual vote of STOP (red light), THINK (amber light), GREEN PLANET (green light). You show that meaning, your visible vote, by tying a coloured ribbon to the post of whatever colour you choose. A simple, clear, non-damaging message conveyed in the UK and also possible throughout the world. A simple message and demand to our elected leaders, delivered at a place where the causative agent of our problem (fossil fuel) is at its strongest! This is a visible vote possible by everyone: man, woman AND CHILD! EVEN OUR CHILDREN, SO WE ALL GET A VOTE THIS WAY! Traffic lights throughout the world can be a constant reminder to our leaders of the strength of feeling for our and our Earth's survival. Do it! Join in this simple, peaceful, free, low carbon footprint action. i4one.co.uk and i4one.org

WHAT HAPPENS AFTER THE MARCH FOR NATURE?

FACT – THE CLIMATE CRISIS IS REAL AND EXISTENTIAL.

FACT – WE ALL PARTICIPATE IN HUMAN SOCIETY SO WE HAVE EFFECTIVELY ALL UNITED TO CREATE THE PROBLEM.

FACT – IN ORDER TO SOLVE IT WE NEED TO BE AS UNITED AS WE HAVE BEEN IN THE CREATION OF THE PROBLEM.

SOLUTION – 'i4one' – the ONLY current means to create such organised human unity by being SUBJECT SPECIFIC (airborne CO2 reduction), FREE FOR ALL, and SAFE FOR ALL (no personal details recorded).

Problems:

CO2 the main causative agent of climate change is INVISIBLE and NONE of our 5 main senses of Sight, Sound, Smell, Taste and Touch alert us to the danger.

The Fossil Fuel Industry creates such wealth, power and influence that ONLY human desire for survival can match it.

There is a no return tipping point and we are fast approaching it. Time is running out. There is a CLIMATE EVENT HORIZON.

Another FACT – we NEED some CO2 in the air to make our planet habitable for life. 350ppm CO2 is scientifically agreed to be the ideal balancing concentration for life. We are at 424.76 ppm today

We need to reduce the current CO2 airborne concentration effectively and controllably. The means to do that must be SAFE, too much removed and we tip the other way and the planet goes cold! The SOLUTION & ANSWER must be controllable to be safe. ALGAE, BACTERIA & FUNGI are UNCONTROLLABLE.

ONLY ONE PLANT allows us CONTROL so is safe and can do it in the required amount in the time we have left to save ourselves.

DUCKWEED, an Angiosperm plant, grows only on NON-SALTY, STILL, POLLUTED WATER (mainly ponds and ditches naturally). Our Rivers, the Sea and Large Lakes are safe from it. It is the ONLY plant that we can farm vertically to maximum capacity because it requires so little depth to grow in. It is therefore the only plant we can effectively create extra Earth surfaces for. Every 2-3cm, another Earth Surface for the plant can be created by us. Duckweed IS THE ANSWER!
